

MAC100B – Açai Machine

Soft Serve Countertop Unit

- Exclusive defrost function and a low mix level indicator. With a complete stainless steel body this machine guarantees quality, durability all while facilitating the cleaning process of the equipment.
- This budget-conscious unit is equipped with (2) 1.8 liter freezing cylinder and (1) 9 liter hopper, and while it may be small enough to fit on a countertop, it can still produce up to 32 quarts (8 gallons) per hour!
- All washable parts are injection molded, highly durable plastic.
- Height-adjustable feet, maintain leveled machine
